

Kimbriki Recycling & Waste Disposal Centre

Vegetation collected is taken to Kimbriki Recycling and Waste Disposal Centre where the vegetation is shredded and made into mulch and soils.

Compost Your Vegetation

Composting reduces waste and can help to improve the soils on your property.

Composting uses a balance of ingredients such as garden clippings, branches, fruit and vegetable scraps, coffee grounds, tea bags, soil, papers and wood ash. Turn the compost over regularly and keep the compost moist.

Free composting workshops are available at Kimbriki Recycling & Waste Disposal Centre. Phone Kimbriki on 9486 3512 or visit the website: www.kimbriki.com

Vegetation Collection Information for Scotland Island

For the purpose of fire fuel reduction

Acceptable Vegetation

- ← Lawn clippings, weeds and leaves must be presented in hard sided containers
- ← Branches are to be no longer than 1.2m, and no wider than 75mm
- ← All branches must be bundled and tied
- ← Bundles must be able to be lifted by one person
- ← Two cubic metres maximum per household
- ← Vegetation will only be collected from the roadside

Unacceptable Materials

- ← Vegetation in any form of plastic/nylon bag, hessian bag, polystyrene boxes, foam boxes & cardboard boxes
- ← Tree stumps, soil, fencing
- ← Non organic materials
- ← Treated, painted, stained or laminated timber, particle board, plywood
- ← General clean up materials
- ← Vegetation placed out late
- ← Vegetation on public or private wharves

Tree Preservation Policy

The following trees and shrubs are protected by Council's Tree Preservation Policy and are not to be removed without prior Council approval.

- ← All bush land
- ← Vegetation in excess of 3m in height, or with a trunk girth of 0.5m, and
- ← Any mangrove or cycad irrespective of dimension

Only undesirable plants (such as noxious weeds) are exempt from the Tree Preservation Policy. A complete list of undesirable plants can be found on Council's website: www.pittwater.nsw.gov.au

Where unacceptable vegetation has not been collected you are to do the following:

- ← Mulch or compost the vegetation and reuse on-site
- ← Take the vegetation to Kimbriki Recycling & Waste Disposal centre
- ← The vegetation is to be appropriately stored within the boundaries of your property and correctly presented at the next vegetation collection
