

## **MICK MILLER HAD AN INCREDIBLE CAREER COACHING SOME OF AUSTRALIA'S TOP ATHLETES.**

But after a close call with throat and neck cancer in 2013 he put most of that aside, packed his blender into a 1968 sky blue Volkswagen Beetle called 'The Rocket' and set off on a journey of discovery and recovery around Australia.

Travelling Around Australia Mick's Way follows his journey and captures Mick's daily adventures in the backdrop of the awe-inspiring Australian landscape. His story and photography is real, heartfelt and inspiring.

This could be a wonderful Christmas gift for family or friends. All proceeds go to a Post Cancer Support Charity. Mick would be happy to tell any intending purchaser more about his story.

To order the book, please visit Mick's website: [www.mickmiller.com.au](http://www.mickmiller.com.au)
