

TO WHOM IT MAY CONCERN

Downer EDI are planning to undertake planned maintenance work on roads in your area in late September, October and November on behalf of Roads and Maritime Services (RMS). This initial contact is to provide you an overview of our planned work and allow you to provide comment regarding access to your premises/business.

The proposed road work in September and October 2013 is planned for the following roads:

- McCarrs Creek Road between Mona Vale Road and McCarrs Creek Reserve, and
- West Head Road, between McCarrs Creek Road and Liberator General San Martin Drive (Refer attached Map).

The road work requires the replacement of the asphalt road surface and structural strengthening to the roads and is tentatively scheduled to start on Sunday 29 September 2013. The work is scheduled to take approximately 20 days to complete over four weeks, weather permitting. The majority of the work would be undertaken during the day under full or part road closures.

We are currently finalising traffic management for the road work and plan to close sections of McCarrs Creek Road to undertake the work in a safe and efficient manner.

Sections of McCarrs Creek Road & West Head Road which are planned for closure are as follows:

1. McCarrs Creek Road roundabout with Mona Vale Road is proposed to be undertaken at night with local detours in place.
2. McCarrs Creek Road (link 40), between Yulong Avenue and Liberator General San Martin Drive is proposed to be closed to traffic and detours proposed via Mona Vale Road and Pittwater Road.
3. McCarrs Creek Road (link 30), between Liberator General San Martin Drive and West Head Road is proposed to be closed to traffic and detours provided via Liberator General San Martin (i.e. Akuna Bay).
4. McCarrs Creek Road (link 26), between West Head Road and McCarrs Creek Reserve is proposed to be closed to traffic and detours proposed via Pittwater Road and Mona Vale Road.
5. West Head Road, between McCarrs Creek Road and Liberator General San Martin Drive is proposed to be closed to traffic and detours proposed via Liberator General San Martin Drive (i.e. Akuna Bay).

Each full road closure is expected to be in place for a minimum of five days with work occurring only from Monday to Friday between the hours of 6.30 am and 5.30 pm.

Please note that all emergency vehicles and residents who reside on McCarrs Creek Road will be given access at all times. Minimal closures will take place during school holiday periods.

Further planned work is scheduled to resurface Liberator General San Martin Drive between late October and early November 2013. We will be in touch closer to the date to discuss this work.

Before further plans are developed we'd like to hear your views around access and scheduling. Please email or phone with feedback and suggestions prior to Tuesday 10 September 2013.
