

Community Vehicle Report
November 2015

No major issues since last meeting.

Trips for Q3 2015 were slightly down on same period last year – 392 down from 486 (presumably due to the lack of access to top of Island) however we expect the overall pattern of slight growth to continue now the road is repaired.

Discussion Items for SIRAC: There has been some further discussion on the past/ possible arrangements for Scotland Island Kindy kids. There has not been a previous concession – rather an arrangement to pick up several children in a single trip. The time is an issue as the normal CV bookings start at 9am which would be too late for the kindy trip.

Decision items for SIRAC: *None*
