Dear Community Member

**Wharf Upgrades – Bells and Carols Wharf**

The Northern Beaches Council has is jointly funding upgrades to Bell's and Carol's Wharf on Scotland Island as part of the State Government's \$70 Million funding program *NSW Boating Now*. The scheme supports initiatives that enhance the boating experience in NSW, including the delivery of boating infrastructure across NSW waterways.

As part of the early concept design development we have set up a brief survey to help understand both the number and type of vessel which utilise the wharves on Scotland Island. We will then use this information to develop concept layouts for these wharves which we will release for community comment later in the year.

We would appreciate if you could visit the link below to submit your survey online. You can also register your details if you would like to keep up to date with this project.

**To:** Alec Beckett <[alec\\_beckett@yahoo.com.au](mailto:alec_beckett@yahoo.com.au)>

Hi Alec,

As discussed at our resident meeting we have set up a survey for residents to complete which will assist Haskoning with their design.

The survey link is here and will close on April 21: <https://wharfupgrade.questionpro.eu>

I will be mailing out the attached letter to all residents this week. I think it would be helpful if you could use your circles to encourage people to respond so that we capture as much data as possible. Would I also be able to ask your assistance in printing a few of these notices off and attach them to the wharf notice boards around the island?

Thanks in advance

David

**Subject:** Fwd: Scotland Island Wharves - User Survey

Hi Wharves Working Group and David,

Below is the link from David for the survey. I have placed the notice he refers to up in both huts.  
Take a few measurements and click away. Let your neighbours know too.

Cheers,

Alec
