Wants/hopes

- A safe road to the top of the island.
- Keep the lines of communication open between waterfront and non waterfront and look at their different needs.
- Keep us an island, don't over run with vehicles
- Have days like today to celebrate our island spirit
- Try to remove factions and keep talking to each other
- More wine
- Lots of sculptures in the park
- Togetherness/no political factions/decisions for the common good
- My only wish for change is no dog poo
- Would love a coop, garden, chooks and compost as I will never have these

- My vision – Island café – Weekend joy, continued community events, keeping the island unique
- Private transport for the disabled/ elderly only Parking on own block, not on road side, Passing by (lay by sections)
- Let's work on 'waging peace' NOT war with our fellow islanders- an example to the world and all humanity
- A better car park, space for everyone so we get out at regular nights and weekends. Fix the puddles – otherwise everything is perfect
- Safe roads, well maintained
- I wonder if we have roads yet.

Advice

- Remember what drew you to the island and never let go of that feeling, live simply, celebrate the oneness that you share
