

Waste Management Sub-committee report August 2015

August Report:

Issues raised from community discussed with PWC are:

1 *Overflowing skips?*

Response- PWC has requested additional skip for Bell

2 *New lids on skips don't work*

Response- URM contacted to look at better solution

3 *New lids too small.*

Response- PWC will discuss with URM-currently this is the only option offered

4 *Changes to recycling pickup times/model not effective*

Response- Nothing yet.

5 *Lack of recycling and cleanup to top of island*

Response- Richard Li says they are liaising with engineering on the roads but have no real influence
