IPART is conducting an end of term review of Sydney Water's operating licence. The primary purpose of the review is to determine whether the operating licence is fulfilling its objectives and to recommend to the Minister for Natural Resources, Lands and Water the terms and conditions of Sydney Water's new operating licence. The new operating licence will take effect from 1 July 2015.

The Public Forum is an opportunity for stakeholders to provide comment on the draft operating licence and reporting manual.

Each session will be introduced by a brief presentation by IPART. The Chair will then seek comments from stakeholders situated around the table. Following discussion from stakeholders around the table, the Chair will then invite comments from other stakeholders in attendance (in the audience).
